

Questions To Ask

Caleb McCreary

Arrays and Strings

Determining if a string has all unique characters:

- Is the string ASCII or Unicode?
- If ASCII, is it extended ASCII?

Determining if strings are permutations of each other:

- Are the strings ASCII or Unicode?
- If ASCII, is it extended ASCII?
- Is the permutation case sensitive?
- Is the permutation whitespace sensitive?

Determining if a string is a permutation of a palindrome:

- Is the permutation case sensitive?
- What is the character space?

Determining if two strings are one edit away from each other:

- Is whitespace significant?
